## 1 Fabasoft eGov-Suite 2025 (25.0.0)

### 1.1 Build 25.0.0.225.27 (January 28, 2025)

#### eGov17163

The selection of the printer when printing after dispatch has been optimised. Previously, the printer had to be selected for each document to be printed. This has been improved so that the printer only needs to be selected once

An error when printing via the print icon in the viewer has been fixed

### 1.2 Build 25.0.0.225.25-26

#### *Internal builds*

### 1.3 Build 25.0.0.225.24 (January 23, 2025)

#### eGov17160

Following the removal of the Business Data, the chapter on Business Data was removed from the white paper "Use cases zur Fachanwendungsintegration in der Fabasoft eGov-Suite"

#### eGov17076

The Stamp tool for annotating is now also available on mobile devices

#### eGov17096

When calling up the parent object via the context menu, the current role of the user is now also specified. This means that the new window is also opened in the correct role and behaves in the same way as in the original window (Edition CCA)

### 1.4 Build 25.0.0.208.19-23

#### *Internal builds*

### 1.5 Build 25.0.0.208.18 (January 10, 2025)

#### *Release*
