## 1 Preface

The following documentation shows the available hotfixes for all releases of Fabasoft Folio and the Fabasoft eGov-Suite respectively in descending order.

Available hotfixes for older releases of Fabasoft Folio and the Fabasoft eGov-Suite up to and including release 2022 are provided exclusively for download as a PDF-Document, which can be found in the final section below.

The Fabasoft eGov-Suite is based on Fabasoft Folio. Therefore, each release of the Fabasoft eGov-Suite has a specific release of Fabasoft Folio as base runtime, which is identified in the first three parts of the version information. The last part of the version information identifies the build number of the Fabasoft eGov-Suite.

For example, the build 23.0.0.162.28 of the Fabasoft eGov-Suite 2023 is based on the build 23.0.0.162 of Fabasoft Folio 2023 and consists of build 28 of the Fabasoft eGov-Suite.

### Disclaimer

The following lists of the available hotfixes are not an official product documentation and do not pretend to be complete and correct. For the Fabasoft eGov-Suite only the editions for Austria (AUT), Germany (DEU) and Switzerland (CHE) are considered.

Hotfixes can be delivered only on demand to customers with a valid Fabasoft Support or Fabasoft Silver/Gold/Premier Support Agreement.
